

2021 Water-related Budget Suggestions to the Dane County Lakes and Watershed Commission

Hello,

Each year the Dane County Lakes & Watershed Commission prepares water-related budget recommendations for consideration by the Dane County Executive. We are seeking your ideas and recommendations that you think Dane County should consider in its 2021 budget to improve the quality, scenic, economic and environmental value of our lakes, streams, watersheds and drinking water. A draft of the 2021 Budget Recommendations can be accessed online at: <https://lwr.d.countyofdane.com/Committees-and-Commissions/lwc-budget-recommendations>

Please fill out the form below and send it to lwr.d@countyofdane.com by **July 31st**. Please include "2021 Water-related Budget Suggestions" in the subject line.

All received budget suggestions will be reviewed and considered for incorporation within the Lakes & Watershed Commission 2021 Budget Recommendations at its scheduled August 19th meeting.

Chuck Erickson, County Board Supervisor - District 13
Chair, Dane County Lakes and Watershed Commission
