R 3/2016

Return application materials to: Dane County LWRD, 5201 Fen Oak Drive, Room 208, Madison, WI 53718-8827

Questions? Please call the Dane County Land Conservation Division at (608) 224-3730.

Part 1: Applicant Information

Applicant Name

Professional Nutrient Applicators Association of Wisconsin Certified Yes No

Mailing Address

Phone Number(s)

E-mail Address

Signature of Authorized Representative

Date

Anticipated Partnering Producers (Estimated Acres/year)

E-mail Address(es) & Phone Number(s)

Part 2: Eligibility Information

To determine program eligibility, check all that apply:

- Applicant and partnering producers listed above are located in Dane County.
- Land proposed to receive LDMI is located in the Yahara River Watershed.
- Land receiving LDMI is in compliance with an approved conservation plan.

LDMI equipment will be used in the following manner:

- In applying liquid manure to at least 500 acres per year in the Yahara Watershed for at least 3 years.

If manure applications utilizing LDMI will occur in the fall, all partnering producers have agreed to on of the following management options (check at least one):

- LDMI application with no other tillage occurring in the fall.
- LDMI application with low disturbance subsoil tillage and the seeding of a cover crop.

A Snap Plus version the nutrient management plan for all participating producers has been provided, is included, or will be provided prior to requesting cost share funding, to the Dane County LCD.

Yes No Other: _____
